Optimizing your  
material  
handling  
assets

# What is Storeganizer?

conTeyor's material handling solution brand

Making use of engineering capabilities tailored to your benefit

Smart, flexible and easy to deploy

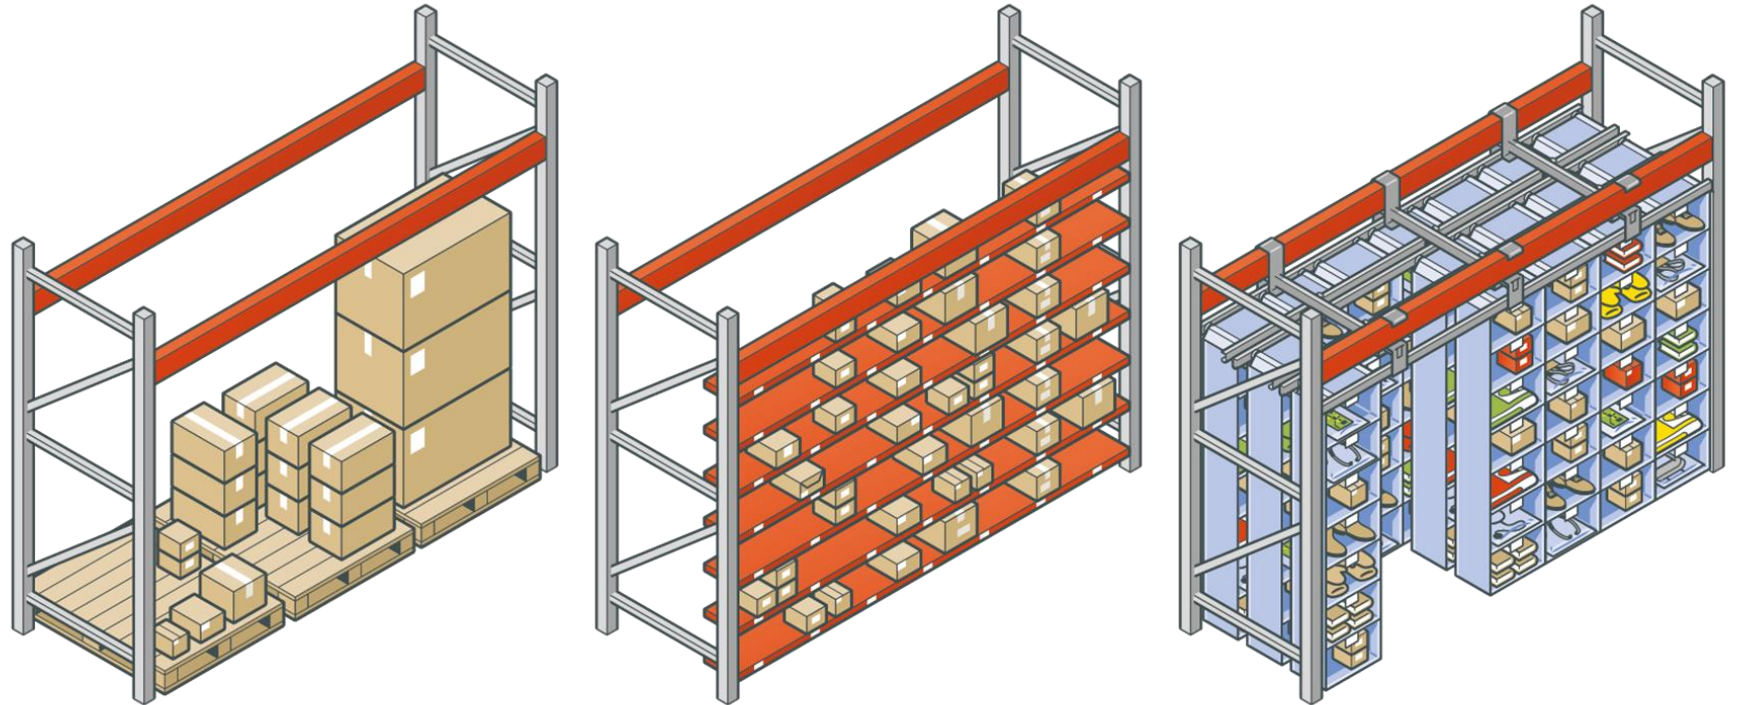

Possible to perform a flow analysis of your operation (via Slot 3D software)

**STOREGANIZER**

MORE STORAGE IN LESS SPACE

# Innovative storage system

**STOREGANIZER**  
MORE STORAGE IN LESS SPACE

Storeganizer's storage system is an innovative high-density warehouse storage solution which allows warehouses to cost-effectively store more items per  $m^2/ft^2$  and  $m^3/ft^3$  in columns of suspended, easy-to-access pockets made of flexible and durable fabric. This enables the optimization of the use of rack space and decreases the TCO of warehouses.

# Different options & advantages

Fits in  
any pallet rack

Multiple size options

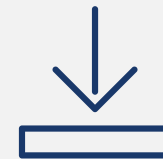

Easy  
installation

Scalable &  
maintenance free

**40%**  
space saving

**42%**  
decrease in  
travel time

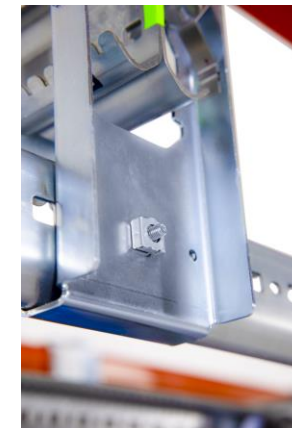

**26%**  
increase picking  
productivity

MORE STORAGE IN LESS SPACE

# Testimonials

Our picking KPI has improved and our picking accuracy is currently at 100% thanks to Storeganizer.

Joy Cotrell, Ceva Logistics

There is simply no other solution that is able to optimise small SKU storage to the same extent.

Jérôme Mellerin, ID Logistics Paris
